## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 75-79, 91-92 and 96-97 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Regarding to the limitation “wherein the receiving party unilaterally changes the selected format for transmitting the media information” (claim 75, last two lines); the specification, and specifically paragraphs 0019 and 0068, does not disclose the above claimed limitation, and therefore, the claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

3. Claims 75-79, 91-92 and 96-97 are rejected under 35 U.S.C. 101 because the claimed invention is not supported by either a substantial and specific asserted utility or a well established utility.

Regarding to the limitation “wherein the receiving party unilaterally changes the selected format for transmitting the media information” (claim 75, last two lines); the specification, and specifically paragraphs 0019 and 0068, does not disclose the above

claimed limitation, and therefore, the claimed invention is not supported by either a substantial and specific asserted utility or a well established utility.
